MAKE A SUCCESS OF LIFE

*You can make more money in five years
on a Park valley farm than you can
in twenty years at a "routine grind"*

It is folly to throw away the best years of your life working as a slave for a mere pittance, leading a life of bare existence, when you could live well, share in life's best offerings and be happy on a

PARK VALLEY FARM

It Is the Basis of Many Future Fortunes

A Real Opportunity, No Fertilizer Needed for the Real Man

The real man, the man who accomplishes things, is not in the luck rut. He is a live individual who looks at things without prejudice and sees them

Park valley land is new land. In many parts of the United States you have to spend as much money for fertilizing the land as you are asked to pay for the fresh, rich virgin land itself in this wonderful new valley.

Perfect Titles

We were the first company to exploit Park valley. Every acre was carefully selected. The land we sell is the land we own. You may examine our abstracts, deeds and tax receipts—they are all perfect and fully paid up.

Ideal Farming Conditions

All temperate zone crops can be raised in Park valley, along

be raised in Park valley, long summers insuring their full maturity. Gasoline pump wells (operated at very low cost) furnish a plentiful supply of water for all purposes.

The Richness of Park Valley

This land is as rich as any farm land you can buy. The heavy growth of sagebrush is an indication of the bumper crops this land will produce.

You make a small payment at time of purchase and are given plenty of time in which to pay the balance. The fertile soil conditions of this land make it possible for you to pay for it out of the profits you get from the crops raised ("no crops, no payments").
